Interpersonal Skills

- Effective Communication
- Verbal Communication
- Team Collaboration
- Problem-Solving Aptitude
- Positive Attitude

Education Background

● B.Tech

Sreenivasa institute of technology and management studies /Chittoor *Electronics and communication* Completed in 2023 with **7.42 CGPA**

● 11th +12th

Vivekananda junior college /Jammalamadugu

Completed in 2019 with **8.28 CGPA**

● 10th

Sree Padmavathi high school

Completed in 2017 with **9.0 CGPA**

About me

I'm an aspiring front-end developer with a passion for creating user-friendly web applications. I'm eager to apply my programming skills and creativity to design innovative solutions. Committed to continuous learning, I stay up-to-date with the latest web development technologies and java. My goal is to be a valuable member of a forward-thinking team, contributing my enthusiasm and fresh perspective to deliver exceptional user experiences.

Projects

IoT based Wireless Alert System for Deaf and Hard of Hearing

Sreenivasa Inst. of Technology &Management Studies 2023

Developed and implemented an innovative solution leveraging Raspberry Pi technology to create a low-cost, independent device for deaf individuals residing alone. Integrated camera, vibrator, and wireless GSM functionality to provide real-time doorbell notifications, promoting safety and independence.

Responsive Website Projects:

I have successfully developed a series of responsive clone websites, including a Spotify music streaming clone, Night Bite online food delivery clone, Royal Brothers bike rental clone, and Retro Dinner restaurant clone. These projects, built using HTML, CSS, and JavaScript, exemplify my proficiency in replicating real-world applications with user-friendly interfaces that adapt seamlessly to different devices.

Mini Projects:

I have developed small projects using React.js, HTML, CSS, and JavaScript, including a fully functional calculator, a dynamic to-do list, and a toggle paragraph feature. I also have experience in fetching and integrating external APIs to access real-time data.

Skill Set

1. HTML

- Good knowledge on various tags to make the web page more creative Knowledge on various properties.
- Had a knowledge on Hyper Links and Multimedia tags.
- Good in Creation of HTML Tables and Forms.

2.CSS

- Good Understanding on Selectors, Types of CSS and various properties that required for applying style.
- Knowledge on position properties that required for applying style.
- Had Knowledge on Multimedia, Position and Transform Properties.

3.Javascript

- Good Knowledge on Types on JavaScript, Keywords, Functions.
- Knowledge on Operators and Data Types. Extensive Knowledge on Strings, Arrays.
- And Knowledge on control and looping statements.

4.SQL

- Good understanding of RDBMS concept like datatype.
- Knowledge of SQL concepts group by clause, subqueries, functions and operators.
- Solid Understanding of SQL joins and SQL Statements.

5.React js

- Good knowledge on creation of components.
- Basic idea about props, states and React Hooks.
- Good knowledge on Routing and API's Fetching.
- Basic idea about Event Handling.

6.Bootstrap

7.Java

- Good Knowledge of memory block creation and accessing the block.
- Extensive knowledge of Methods, Constructors, Blocks, and Controlling Statements.
- Hands on experience of Overloading and Overriding concepts.

Languages Known

- English
- Telugu
- Hindi

Courses

- I have completed **Java Full Stack developer** course from JSpider's, Hebbal, Bangalore.

Certifications

- Certificate of completion of **Introduction to Front End Development** from **Simplilearn**
- Certificate of completion of **JavaScript** projects –Great Learning
- certificate of participation in two day's workshop on "**Arduino with real time applications**" – SITAMS
